## Overview

Our accessibility audit team has completed their first website accessibility audit. Their findings are listed below.

## Terms

The terms used in the **Conformance Level** information are defined as follows:

- **Meet:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Meet:** Some functionality of the product does not meet the criterion.
- **Does Not Meet:** The majority of product functionality does not meet the criterion.
- **Not Applicable:** The criterion is not relevant to the product (eg.: 1.2.2 Captions, if the product contains no timed-based media such as a video, that criterion would be *Not Applicable*.)
